## PROFILE SUMMARY

Aiming for a Full Stack Developer role in a renowned organization where I can contribute my technical expertise and further enhance my skills.

- Proven ability to manage and deliver projects efficiently from ideation to deployment.
  - Constantly updating myself with the latest industry trends and technologies, committed to providing innovative solutions.
- 

## PROJECTS

### Cake Bakery Application with Authentication

*June 2024 - Present*

*Technologies: React, Node.js, JavaScript, HTML5, CSS, MongoDB, Bootstrap*

A fully-featured cake bakery application that enables user registration, authentication, and blog post management.

- Developed the front-end using React to create an interactive and responsive user interface.
- Managed the backend using MongoDB for efficient data storage and retrieval, and implemented user management features.

### Jarvis: Voice-Activated AI Assistant

*Technologies: Python*

A voice-activated AI assistant that answers questions and navigates digital tools using natural language processing.

- Developed using Python, bringing a science-fiction-like assistant to life with real-time voice commands.

### Personal Portfolio Website

*Technologies: HTML, CSS, JavaScript, Git*

Created a fully responsive personal portfolio website to showcase my projects and skills.

- Used HTML, CSS, and JavaScript for an interactive, aesthetically pleasing front-end.
- Managed version control with Git and hosted the project on GitHub for continuous deployment and updates.

---

## ACADEMIC ACHIEVEMENTS

- Python for Data Science, AI & Development Certification - IBM
- Full Stack Development with React.js Certification
- Led the College Graphic Design Team, managing design projects and events, enhancing team creativity and output.
- Certificate in Resume and LinkedIn Optimization Webinar
- Microsoft Azure Cloud Certification

---

## SKILLS

### **Programming Languages:**

Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, C, C++, Java, Data Structures and Algorithms, MySQL, Object-Oriented Programming (C++)

### **Tools & Technologies:**

VS Code, PyCharm, Microsoft Azure, AWS, MongoDB, Bootstrap, IntelliJ, Cloudinary

---

## ADDITIONAL INFORMATION

- Strong team player with leadership experience in managing college projects and initiatives.
- Excellent problem-solving and analytical skills developed through diverse coding and development projects.
